FACTOR

Fast-tracking deals with NDAccelerator

Harnessing GenAI-enabled legal talent for a seamless, cost-effective service.

Limited capacity and heavy in-house workloads can leave NDAs and other pre-transactional work languishing. Rather than providing much-needed relief, outside options often prove to be cost-prohibitive (law firms) or inconsistent and rigid with 24-hour turnaround times (ALSPs). Cue: extended deal cycles, frustrated deal teams and missed opportunities.

Trusted for more than a decade by the world's largest and most sophisticated legal departments, Factor's updated NDA offering is aimed at the specialized requirements of asset managers.

Factor's white-glove handling includes:

- ✓ Rapidly launched managed service
- ✓ Named, dedicated resources assigned to your deal teams
- ✓ Personalized service with GenAI tooling
- ✓ Improved quality with mitigated contractual risk
- ✓ Efficiency in adjacent contract areas, not just NDAs

Features of NDAccelerator

Initial conflict checks	Real-time workflow tracking and reporting	Direct engagement with deal teams
<3-hour request acknowledgement	<4-hour turnaround on urgent matters	<7-hour turnaround on most matters

Quick-start pilot

Streamline NDA executions immediately. Provide 3-5 recent NDAs and guidelines; we'll execute 30-50 live NDAs in 1-2 months, tailoring our approach to your stakeholders and requirements.

Indicative pricing
